

SB132

Dear Public Safety Committee,

Thank you for taking the time to consider the interest of your constituents for this bill.

Connecticut will benefit tremendously.

Many new bills have recently passed that contribute to our state's financial success.

This bill will absolutely add to that, as well as keep our residents in state instead of breaking the law by purchasing fireworks from other states and using them here.

I'm looking forward to this being approved!

All the best,
Jill Bourassa
